Arrcom, Rathdrum, Idaho

Kenneth D. Feigner, Chief /w Kenneth D. Feigner
Waste Management BranchPhillip Millam, Acting Chief
Superfund Branch

Recently the State of Idaho conducted a Resource Conservation and Recovery Act (RCRA) compliance inspection of the Arrcom site in Rathdrum, Idaho. During the inspection, it was noted that many tanks at the site were still leaking, and that there was no restriction to site access. A copy of the inspection report will be forwarded to you when it is received from the State of Idaho.

Please assess the site for endangerment and take appropriate action to secure the site if necessary. Please inform me of the results of your investigation and of the corrective measures taken.
